Color Fill

Decorative grouts and sealants for contemporary projects

kerakoll

Fugabella Color

Decorative resin-cement available in 50 contemporary colours for the grouting of ceramic tiles, mosaic and natural stone.

Fugabella Color achieves performance characteristics such as water-repellence, very low water absorption, high surface hardness, high resistance to the most common acidic substances and total colour uniformity.

→ High uniformity and high colour depth

→ Water-repellent

→ Easy to clean and maintain

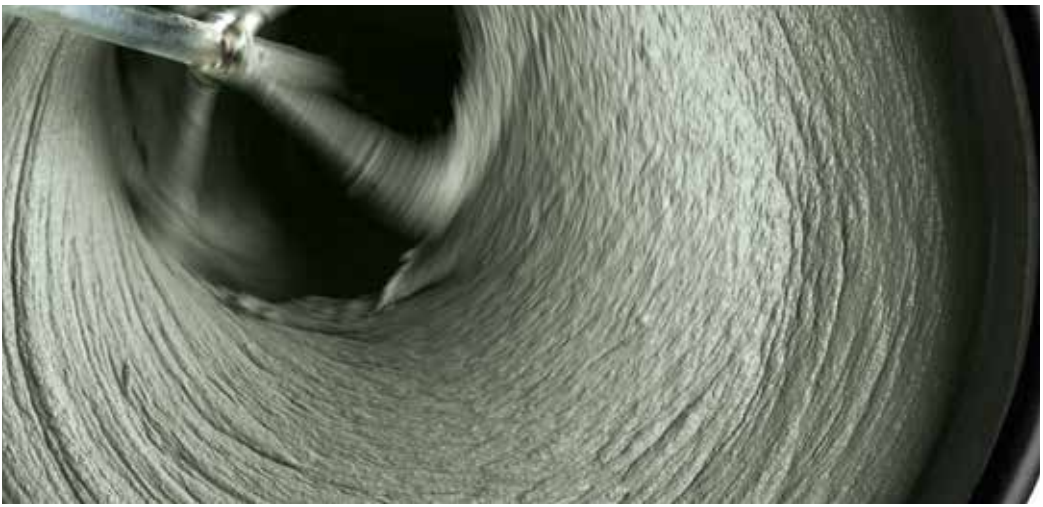

→ Superior flexibility

→ Prevents the growth of bacteria and mould (ISO 846 2019: Method A/B/C)

→ CATAS-tested for colour durability in external applications

→ Available in 50 colours

Fugalite Color

Waterproof resin available in 50 contemporary colours for the grouting and bonding of ceramic tiles, mosaics and natural stones.

Fugalite Color is water- and stain-proof, liquid ceramic for joints; it ensures high chemical and mechanical resistance and guarantees the aesthetic and functional continuity of ceramic surfaces.

→ Stain-proof - Easy to clean

→ High uniformity and high colour intensity

→ Waterproof - Non-absorbent and does not change colour

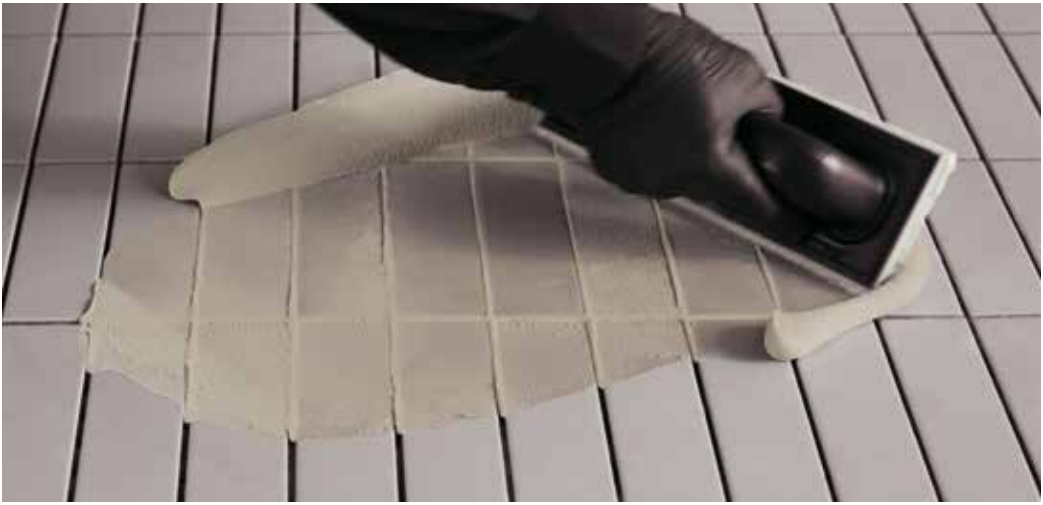

→ Prevents the growth of bacteria and mould (ISO 846 2019: Method A/B/C)

→ CATAS-tested for colour durability in external applications

→ Complies with HACCP/EC 852/2004 requirements for food hygiene

→ Available in 50 colours

Silicone Color

Decorative sealant available in 50 contemporary colours for ceramic tiles, mosaics and swimming pools.

Silicone Color develops a high degree of adhesion to non-absorbent surfaces, guaranteeing the integrity and watertightness of ceramic and porcelain coverings subject to deformation.

→ Suitable for porcelain tiles, ceramics, low thickness slabs

→ Suitable for swimming pools and for permanent contact with water

→ Resistant to chemical substances

→ Resistant to ageing, UV light and frost

→ Suitable for damp environments

→ High chromatic stability

→ Available in 50 colours

Silicone sealant is available in a transparent, translucent version.

Neutro Color

Decorative sealant available in 14 contemporary colours for marble and natural stones.

Neutro Color is a neutral cross-linked silicone, ideal for the most delicate, porous surfaces.

→ Does not attack, yellow or stain marble or natural stones

→ Suitable on porous and non-porous substrates

→ Suitable for damp environments

→ Resistant to ageing, UV light and frost

→ Available in 14 colours

Silmat Color

Ultra-matt, elastic decorative sealant available in 37 contemporary colours.

Silmat Color develops a high degree of adhesion on porous and non-porous substrates, in all conditions, ensuring integrity and hydraulic tightness of coverings being subject to deformation.

→ Suitable for porcelain tiles, ceramics, low thickness slabs

→ Suitable for damp environments

→ High degree of adhesion

→ High elasticity

→ Overpaintable

→ High chromatic stability

→ Resistant to frost

→ Opaque finish

→ Odourless

→ Available in 37 colours

Color Fill: colours and technology for the decorative finishing of surfaces.

Ceramic tiles, natural stones and mosaics play a central role in interior design and architecture.
Different sizes and material textures allow for spaces and our perception of them to be deeply characterized.

Color Fill is Kerakoll's range of decorative grouts and sealants for contemporary projects. It has been designed to offer multiple colour combinations and technological solutions to meet the aesthetic and performance needs required in the field of surface coverings.

Aesthetics meets performance.

Joints are much more than just a connecting element in discontinuous surfaces. They are "lines" contributing to the space's design and they enhance style and furnishing choices.

Color Fill is the complete decorative finishing system that redefines the aesthetic and technological function of grouts and sealants, in line with design and architectural trends.
The formulations developed by Kerakoll offer suitable solutions for a variety of uses.

All colours are available for Fugabella Color, Fugalite Color and Silicone Color.

● Available colours for Neutro Color
○ Available colours for Silmat Color

50 contemporary shades for endless combinations of joints and surfaces.

The Color Fill palette is designed to offer endless possibilities for the finishing of floors and coverings, from tone-on-tone to contrasting combinations.

The 50 elegant and distinctive shades cover a broad spectrum from the most neutral shades to the most intense colours.
Each colour is marked by a code, shared by all products, which allows for continuity and colour balance between surfaces and finishes.
